Interested in research abroad?

The Peter K. Hepler Research Scholarship

- supports undergraduate research on a biological question in a laboratory or field setting outside of the United States. Funds can be used to support travel, lodging, food, equipment, and supplies.

Applicants must:
- be UMass students in good standing in a College of Natural Sciences major.
- identify a Research Mentor.
- submit an application, research plan, transcript, and 1 letter of support.

For application materials and more information, visit the Biology website at:
